Cybersecurity Tools and Technologies

Cybersecurity Management and Compliance

Advanced Cybersecurity Concepts and Capstone Project

Microsoft SC-900 Exam Preparation and Practice

Nov 21, 2024

Lucas E Gowen

has successfully completed the online Professional Certificate

Microsoft Cybersecurity Analyst

Learners will prepare for a new career in the high-demand field of cybersecurity with professional-level training from Microsoft — an industry-recognized leader. Through a mix of videos, assessments, and hands-on activities, you'll learn cybersecurity concepts and how they apply to a business environment, discuss threat mitigation strategies from an enterprise perspective, apply effective cybersecurity policy measures within an Azure environment, and practice on tools like MS defender, Azure Active Directory & more. For your final project, you'll create a cybersecurity proposal detailing the creation and protection of a business network and infrastructure. When you finish, you'll have tangible examples to talk about in job interviews and be prepared to take the Microsoft SC-900 Exam.
